A worthy investment in your community

The Brant Community Healthcare System (BCHS) Foundation is committed to raising critical funds to ensure a strong healthcare system locally. Your meaningful support through Gala sponsorship helps us to purchase patient equipment not fully covered by the Ministry of Health and put essential medical tools and resources in the hands of physicians and caregivers.

The Gala is one of our most important fundraising events of the year, bringing together community leaders, businesses and healthcare champions to make a tangible impact on local care. This year's event will seamlessly blend glamour with purpose, inspired by the excitement and sophistication of Casino Royale and the world of James Bond. Guests will experience an evening of elegance, high stakes and intrigue, where every moment contributes to meaningful healthcare outcomes.

All In for Imaging, Where Glamour Meets Healthcare Impact

This year, the BCHS Foundation is building on the momentum of last year's event, with a bold new mission, to raise **\$700,000** in support of the ongoing needs of the SC Johnson Medical Imaging and Cardiac Diagnostic Department. Diagnostic Imaging plays a critical role in bringing patient care into focus, providing high quality detailed views of internal structures and physiological activity that allows highly trained physicians to diagnose disease, illness and medical concerns with precision.

With a clear target and a license to make a difference, the Brant Community Healthcare System Foundation is once again proud to rally community support, with a special focus on Magentic Resistance Imaging (MRI).

Thanks to the extraordinary generosity of our community, the 2025 Ignite Gala raised a meaningful **\$480,000**, delivering extraordinary impact on local healthcare. This year, the mission continues, and with your support we can reach our **\$700,000** goal!

Diagnostic Imaging services includes many different types of technology and examinations. Including: X-Ray, Ultrasound, MRI, Mammogram, CT Scan, Nuclear Medicine, Interventional Radiology, Electrocardiogram, Echocardiogram, Electromyogram.

In the 2024-25 fiscal year, the Diagnostic Imaging Department at BCHS performed **295,110 procedures**, demonstrating the high volume of care received locally.
